Five driving forces to realize impressive quality

Nurtured over 40 years of history, we have earned the trust of not only our original brand but also OEM.

Five driving forces for achieving impressive quality

Experience accumulated over 40 years of history that has earned trust not only in the original brand but also in the OEM field.

Creativity to create the same "handmade taste" as the store:

We focus on the "handmade taste" and never compromise on materials and production methods to create and reproduce delicious desserts.

Absolute commitment to safety and hygiene beyond the store - "management power":

In order to absolutely guarantee safety and security, we have built a thorough production system and quality management system.

Provide when needed and in the form needed - "response power":

We are proud to meticulously meet the various needs of customers, no matter when and how much they need.

Continuous development of best-selling new products - "development power":

Not only listen to needs, but also propose products that lead market needs to create needs and topics.

Delivering favorable information to customers - "support power":

Since we have transactions with customers in various formats, we will provide advice and support suitable for customers.
